

CLEVELAND ISD STREAMLINES SAFETY TRAINING & ANONYMOUS REPORTING WITH PUBLICSCHOOLWORKS

THIS CASE STUDY EXPLORES HOW CLEVELAND ISD ADDRESSED SAFETY CONCERNs THROUGH EMPLOYEESAFE AND STAY SAFE. SPEAK UP!, CREATING SIGNIFICANT IMPROVEMENTS IN SAFETY AND INCIDENT REPORTING.

ABOUT CLEVELAND SCHOOL DISTRICT

Cleveland Independent School District serves over 3,800 students across six campuses in Cleveland, TX.

THE CHALLENGE

1

OUTDATED REPORTING PROCESSES

Cleveland Independent School District (ISD) faced ongoing challenges related to bullying and violence. The district lacked adequate training for staff and students on how to respond effectively to threats. Reporting systems relied on handwritten forms, which often contained incomplete information or were misplaced. These inefficiencies led to delays in addressing incidents and limited the district's ability to maintain a safe environment.

2

NEED FOR COMPREHENSIVE SAFETY SOLUTIONS

Recognizing the need for an advanced safety system, Cleveland ISD began searching for a program that would both improve staff and student training, as well as streamline incident reporting.

HOW EMPLOYEESAFE & STAY SAFE. SPEAK UP! HELPED

1

ENHANCED STAFF TRAINING

The district implemented PublicSchoolWORKS EmployeeSafe to address safety training requirements. This system automatically assigned staff members a curated list of online safety courses, including topics like bullying prevention, suicide awareness, and recognizing depression in students. Supervisors were automatically notified of any training that was not completed, ensuring compliance without administrative burden.

2

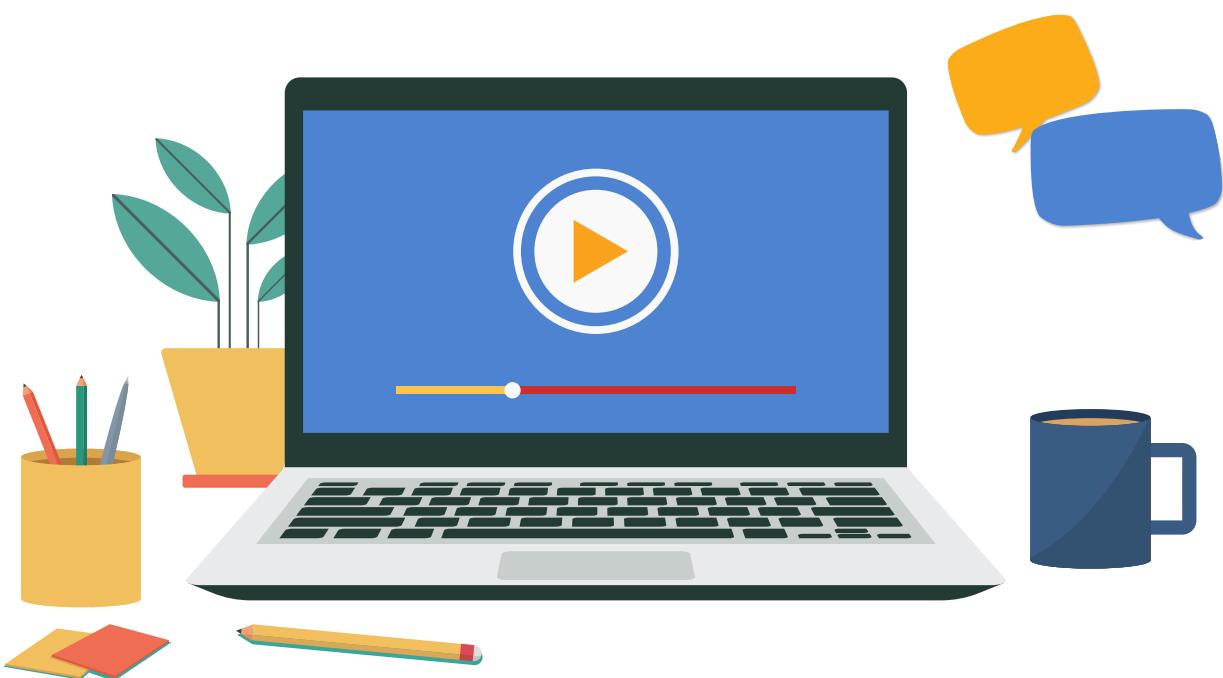

ANONYMOUS REPORTING FOR STUDENTS

Stay Safe. Speak Up! provided students with an accessible, confidential platform to report incidents. This tool allowed students to share concerns with district administrators quickly and effectively, ensuring a swift and informed response.

3

AROUND-THE-CLOCK SUPPORT

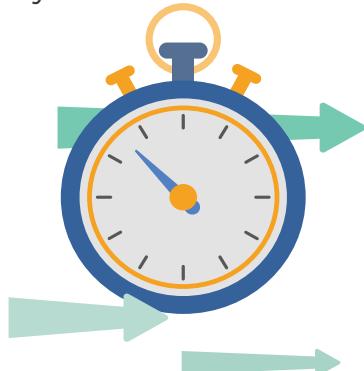

Through a 24-hour emergency hotline, students had access to live counselors who could provide immediate assistance with issues such as bullying, depression, or other concerns impacting their well-being.

RESULTS

By incorporating EmployeeSafe and Stay Safe. Speak Up!, Cleveland ISD experienced tangible improvements in safety and efficiency:

- Accelerated response times to incidents through anonymous online reporting.
- Improved staff compliance with safety training, bolstered by automated tracking and reminders.
- Reduced risk of lost or incomplete incident documentation with an advanced reporting system.

The implementation of these systems has allowed Cleveland ISD to minimize administrative inefficiencies while fostering a safer environment for students and staff alike. This comprehensive approach to safety has freed staff to focus on fostering student success.

LEARN MORE ABOUT RAPTOR®

The Raptor software ecosystem ties together the critical aspects of school safety, from prevention through recovery. Find out how we can work together in our mutual goals of **protecting every child, every school, every day.™**
