

HENRICO COUNTY SCHOOL DISTRICT - VA

---

## **RAPTOR EMERGENCY MANAGEMENT ENHANCES SAFETY PROTOCOLS IN HENRICO COUNTY SCHOOL DISTRICT**

Henrico County School District serves 48,949 students across 75 schools and program centers. Henrico is Virginia's sixth-most populous locality, and HCPS is the commonwealth's sixth largest public-school division.

## THE CHALLENGES

1

### LEVERAGING EXPERIENCE FOR SAFETY PRACTICES BEYOND JUST COMPLIANCE

Casullo, drawing on his experiences and training in law enforcement, wanted to implement a system that could leverage this expertise to elevate the district's safety protocols beyond state requirements.

2

### STREAMLINING STUDENT ACCOUNTABILITY

Casullo wanted to modernize the way the district accounted for students during emergencies. With 20 years in law enforcement, he knew how important real-time accountability could be during an emergency—so he wanted to make sure the district continued to use the latest advancements in technology to keep their students safe. This meant real-time accountability updates and the ability to integrate with the district's Student Information System (SIS).

“

*I was a police officer for 20 years before retiring in 2007 and moving into education. When I was in law enforcement, I led school safety trainings, including active shooter trainings, in the police academy, so as an educator, I have always gravitated towards anything related to safety or school safety.*

*John Casullo  
Director of School Safety  
Henrico County School District*

”

## HOW RAPTOR HELPED

1

### ENHANCING SAFETY & COMPLIANCE

Raptor Emergency Management provided a solution that aligned with the district's ambition to not only meet but exceed state safety requirements. Raptor facilitated a seamless flow of information, making it significantly easier for the school to conduct drills and ensure compliance.

2

### IMPROVING STUDENT ACCOUNTABILITY DURING EMERGENCIES

By integrating with the district's SIS, Raptor made it significantly easier for the school to maintain a comprehensive overview of student whereabouts in real-time during emergencies.

*We make it a point to go over and above state requirements in our safety practices and Raptor Emergency Management helps us achieve this goal. We have our master drill schedule in Raptor Emergency Management, and it really lines up well for compliance and it's easy to see. Plus, our SIS integrates with Raptor, so that information is right there. We're able to account for students more easily.*

*John Casullo  
Director of School Safety  
Henrico County School District*

## THE RESULTS

1

### STREAMLINED PROCESSES

Raptor Emergency Management saved considerable time and resources, allowing staff to focus on more critical aspects of school safety.

2

### ENHANCED COMPLIANCE & SAFETY

With Raptor's integration, the district could easily align with state safety requirements and improve their overall emergency preparedness and response capabilities.

## CHALLENGE

- ✓ LEVERAGING SAFETY EXPERTISE FOR SAFETY PRACTICES BEYOND JUST COMPLIANCE
- ✓ STREAMLINING STUDENT ACCOUNTABILITY

## SOLUTION

- ✓ ENHANCING SAFETY & COMPLIANCE
- ✓ IMPROVING STUDENT ACCOUNTABILITY DURING EMERGENCIES
